NEVADA'S GOLD CAMP

Tonapah and Goldfield Richest in

the World.

Tonopah and Goldfield, Nevada, are undoubtedly two of the richest mining camps in the world. Over \$7,300,000 worth of ore has been shipped from one mine alone within the last year or so, the ore going from \$100 to \$300 a ton with vast quantities in sight. The wonderful richness of ore in developed properties, and the assurance that the entire surrounding region is "full of mineral," offers the greatest of inducements to miners and investors. Tonopah now has a population of over 5,000 and is growing rapidly, while the towns in the Goldfield district have nearly 8,000 people. All branches of business are represented in these towns and prices are not exorbitant. The Tonopah railway now gives regu-lar service to both camps, and travel is no longer a matter of extreme diffi-

No miner or investor should overlook Tonopah and Goldfield. While marvelous finds have been made, it is more than probable that finds as rich will be made in the future, and the man on the ground is the one who will benefit from these strikes. Several millionaires have been made by these millionaires have been made by these camps, for all they are so new, and many men have accumulated comfortable fortunes. For full information about Tonopah and Goldfield and how to reach them, apply to D. R. Gray, 201 Main street, Salt Lake City. The Southern Pacific is the only road to this great mining region, and Mr. Gray, as its agent, is well posted on conditions, rates and routes.
